# Stay united in the fight against TB

## 2021 Global TB Clinical and Educational Summit

Join international experts for the 2021 Global TB Clinical and Educational Summit – a leading event attended in 2020 by attendees from >120 countries.

This year's summit will once again bring together global TB experts to discuss the latest insights in TB control and prevention. Over three days, our speakers will address many of the issues encountered in this complex field and discuss how, in these still challenging times for respiratory medicine, we can still unite against TB.

The free, CPD-accredited event runs September 28 to October 1 and will provide a unique experience for anyone involved in the field of TB management.

 Register today.
